“ Genita an I were in 5th grade together. That's when our friendship began. I remember riding my bike through town to visit her at her house in Dalton Addition (Shell St. If I remember correctly) Her entire family was so welcoming. I would spend a night or so over at her house during those times. I remember us laughing so hard at Anthony while he slept. But one day, life happened and the distance between us became greater. Until one day many many years later I ran Into her at Foodcity parking lot Bristol TN. She was the same girl I remembered, smiling and full of life. I'm so thankful we had that meeting and for Facebook to allow us to reconnect. I don't think she ever met a stranger. However, I do hope her spelling improved over the years. I looked back in my year book and found the message she wrote to me "To Crystal, a great freind" lol I will miss her FB posts and seeing messages about her and her "Ole man"

“ I remember coming to Stateline asking Sherril for tires. I've known him since high school. Then while I waited, his ol' lady came in the door and he introduced me. She hugged me and Sherril put his arms around her and she smiled from cheek to cheek. Such a very sad day. Love and prayers to the family.

“ I have seven years of good memories so I'm not sure where to start or where to end. She was my right hand. We were together 24 hours a day every day. There's not many people that can do that, but we did. I have never loved or been loved with the love that we had and still have. We ran the tire store together, we built the old truck together. There will never be another like her. I love you baby doll and you will be missed dearly. Fly high baby. Until we meet again....
